

Invitation Letter
for
Wind Park BoP Contractor tender

Subject: Invitation to Participate –Procurement of Wind Park BoP Contractor 1st Stage tender for ULP-RES WP onshore wind park.

Dear Candidate,

UTILITAS WIND SIA, as a beneficiary of the EU-funded project, hereby invites your company to participate in the procurement procedure for the Lode Wind Park BoP Contractor tender at Republic of Latvia, Valmiera municipality.

The procurement is conducted under a Restricted Negotiated Procedure in line with EU grant principles of transparency, competition, and equal treatment.

Key details:

- Scope: BoP Contractor works includes roads, 18 foundations, substation construction including equipment delivery, cable works with a completion target of November 2027;
- Estimated value: Above EUR 50 000 000;
- Procedure: Competitive Procedure with Negotiation in two stages. (Open tender for 1st Stage qualification with all qualified candidates from 1st Stage to be invited to 2nd Stage tender);
- Award criterion for 2nd Stage: the bidder with the highest Total Tender Score shall be recommended for contract award;
- Deadline for qualification documents submission: **4th March 2026, 15:00 (EET)**.

Upon request, preliminary technical design and estimates will be provided to interested Candidates. Received documents could be used to facilitate estimation preparation for 2nd Stage. Request must be sent by email to tender@utilitas.lv using in Annex No.7 application form. In case any updates are made for the second stage, the revised documents will be highlighted in the invitation to the second stage.

The full Procurement Notice has been published at <https://utilitas.ee/en/utilitas/tenders-and-projects/> and <https://ted.europa.eu/en/notice/-/detail/73521-2026>

We kindly request you to submit your documents for qualification in English by the deadline indicated.

For clarifications, please contact: Rinalds Bumanis, +371 2789 1106, tender@utilitas.lv.

We look forward to receiving your application and thank you for your interest in contributing to Europe's renewable energy transition.

Yours sincerely,
Renārs Urbanovičs
